

State Fund Fights Fraud

Workers' compensation fraud hurts us all by driving up rates, inflating consumer prices, and affecting companies' ability to hire and fairly compensate their employees

Fraud can be perpetrated by medical providers, injured workers, or employers. According to the California Insurance Commissioner, fraud costs Californians up to \$3 billion a year.

State Fund is dedicated to fighting fraud to help fulfill our purpose of providing fairly-priced workers' compensation insurance to California businesses.

Our award-winning fraud team:

- Includes 29 full-time investigators
- Investigates thousands of tips each year
- Works collaboratively with law enforcement to investigate cheaters and facilitate their prosecution
- Provided evidence to justify \$4.9 million in restitution to State Fund in 2019

To report suspected fraud,
call us from 7:30 a.m. – 5:30 p.m.,
Monday – Friday at (888) 782-8338 and
choose option 5 or contact SIU
at SIUMailbox@scif.com.

Together, we'll keep California working.
