

Safety and Health Services

Our safety services and training programs are offered at no additional charge to our policyholders

Safety and Health Experts:

Our team of safety, ergonomics, and industrial hygiene experts can help you:

- Identify and mitigate workplace hazards
- Develop and promote effective safety programs
- Analyze environmental factors and stresses in your workplace to help you reduce risk exposure

Online Tools

Our comprehensive online resources include:

- **Safe At Work California**—our online safety resource center with more than 500 [safety meeting topics](#) and other publications to help you educate and train your employees on safe work practices.

- **State Fund's IIPP BuilderSM**—a tool to help employers create an Injury and Illness Prevention Program for their business.
- **State Fund's Online Safety UniversitySM**—free online safety training for State Fund policyholders with access to more than 100 courses and a learning management dashboard to assign courses and track completion.
- **State Fund Employer Education Series Safety Webinars**—free live and on-demand safety webinars on a variety of topics throughout the year presented by experts in loss prevention, ergonomics, and industrial hygiene.

To learn more, visit our Safety Resource Center at www.SafeAtWorkCA.com or email SafetyandHealthServices@scif.com.

Together, we'll keep California working.
