INTRODUCTION

Internal Auditing is an independent and objective assurance and consulting activity that is guided by a philosophy of adding value to improve the operations of State Fund. It assists State Fund in accomplishing its objectives by bringing a systematic and disciplined approach to evaluate and improve the effectiveness of the organization's risk management, control, and governance processes.

ROLE

The Internal Audit Department is established by the Board of Directors (hereafter referred to as the Board). The Internal Audit Department's responsibilities are defined by the Board as part of their oversight role.

PROFESSIONALISM

The Internal Audit Department will govern itself by adherence to The Institute of Internal Auditors' mandatory guidance including the Definition of Internal Auditing, the Code of Ethics, and the *International Standards for the Professional Practice of Internal Auditing (Standards)*. This mandatory guidance constitutes principles of the fundamental requirements for the professional practice of internal auditing and for evaluating the effectiveness of Internal Audit's activities.

The Institute of Internal Auditors' Practice Advisories, Practice Guides, and Position Papers will also be adhered to as applicable to guide operations. In addition, the Internal Audit Department will adhere to State Fund's relevant policies and procedures and the Internal Audit Procedure Manual.

MISSION/PURPOSE

The mission of the Internal Audit Department is to provide independent, objective assurance and consulting services designed to add value and improve State Fund's operations. Internal Audit will help State Fund accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, compliance and governance processes. By accomplishing its mission, the Internal Audit Department will assist the Board and Executive management in fulfilling its oversight responsibilities.
