This charter sets forth the purpose, authority, and responsibilities of the Internal Audit Department at State Compensation Insurance Fund (State Fund). It provides the framework for the activities of the Internal Audit Department. The Charter is an adjunct to Corporate Policy GOV 1.0.

### **INTRODUCTION**

Internal Auditing is an independent and objective assurance and consulting activity that is guided by a philosophy of adding value to improve the operations of State Fund. It assists State Fund in accomplishing its objectives by bringing a systematic and disciplined approach to evaluate and improve the effectiveness of the organization's risk management, control, and governance processes.

### **ROLE**

The Internal Audit Department is established by the Board of Directors (hereafter referred to as the Board). The Internal Audit Department's responsibilities are defined by the Board as part of their oversight role.

### **PROFESSIONALISM**

The Internal Audit Department will govern itself by adhering to The Institute of Internal Auditors' mandatory guidance; including the Definition of Internal Auditing, the Code of Ethics, and the International Standards for the Professional Practice of Internal Auditing (Standards). This mandatory guidance constitutes principles of the fundamental requirements for the professional practice of internal auditing and for evaluating the effectiveness of internal audit's activities.

The Internal Audit Department will also adhere to the Institute of Internal Auditors' Practice Advisories, Practice Guides, and Position Papers as applicable to guide operations. Additionally, the Internal Audit Department will adhere to State Fund's relevant policies and procedures and the Internal Audit Procedure Manual.

The Chief Audit Executive (CAE) will report periodically to Executive and/or Senior Management (hereafter referred to as "management") and the Audit Committee regarding the Internal Audit Department's conformance to the Code of Ethics and the Standards.

## **PURPOSE & MISSION**

The purpose of the Internal Audit Department is to provide independent, objective assurance and advisory services to State Fund through the evaluation of risk, internal control, and governance processes. The mission of the Internal Audit Department is to enhance and protect State Fund by providing risk-based and objective assurance, advice, and insight.

## **AUTHORITY**

The State Fund Chief of Internal Affairs shall act in the capacity of Chief Audit Executive for the Organization. Under the direction and control of the Chief Audit Executive, the Vice President of Internal Audit and Internal Audit Department staff have authorization to:

- Manage and conduct the internal audit activity, including determining the risk-based priorities for such activities, consistent with the organization's objectives.
- Select audit subjects, determine scopes of work, allocate resources, set frequencies, establish follow-ups on recommendations, and apply the techniques required to accomplish audit, investigation, and control objectives.

The CAE will disclose details of impairment to the appropriate parties if he/she determines that independence or objectivity may be impaired in fact or appearance.

Internal auditors will maintain an unbiased mental attitude that allows them to perform engagements objectively and in such a manner that they believe in their work product, that no quality compromises are

made, and that they do not subordinate their judgment on audit matters to others. Internal auditors will have no direct operational responsibility or authority over any of the activities audited.
