RESOLVED, by the Board of Directors of the State Fund in regular meeting assembled at Pleasanton, California on February 27, 2020 that:

A. Investment Philosophy and Strategy

All Portfolios are structured and managed in a manner consistent with prudent and conservative investment practices. All purchases must meet the following criteria and any further detailed criteria for the specific mandate.

Environment, Social, and Governance (ESG):

General Principles: In pursuing the investment objectives set forth in this Investment Guidelines, any Investment Manager approved by the Board of Directors and under contract with State Fund will have a process for assessing and monitoring current or potential investments in relation to environmental, social, and corporate governance issues (the "ESG Factors"). The Investment Manager will ensure that appropriate staff receives access to relevant investment data and information and applies due care and diligence to applying the Investment Manager's analytical process, including considering the extent to which ESG factors affect investment risks or opportunities.

ESG Incorporation: The Investment Manager will have an ESG framework as part of its investment process which may be used in security selection and portfolio management. The Investment Manager will use care and discretion as to how this framework will be applied in meeting State Fund's primary investment objectives. All else equal, the Investment Manager will prefer securities which, in his/her assessment, show superior environmental, social and governance practices.

The objective is to seek long-term total return and current income by investing primarily in large cap, high quality dividend paying stocks of United States and Canada companies that show a consistent history of strong dividend growth and sustainability or are expected to produce sustainable growing dividends. The Portfolio is expected to exceed the performance of its established benchmark over the long term.

The target spread over the FHLB advance rate should exceed the established benchmark.

4. Cash and Cash Equivalent:

The objective of the cash portfolio is to preserve State Fund's surplus and principal, to maintain liquidity, and to provide a readily available funding source for settlement of trades, claims payments, and other necessary operational expenses.
