RESOLVED, by the Board of Directors of the State Fund in regular meeting assembled at San Francisco on August 18, 2015 that:

A. Investment Philosophy and Strategy

All Portfolios are structured and managed in a manner consistent with prudent and conservative investment practices. All purchases must meet the following criteria and any further detailed criteria for the specific mandate.

1. Fixed Income Portfolio:

The objective of the Fixed Income Portfolio is to preserve State Fund's principal and surplus, while maximizing current income and exceeding established benchmarks over the long-term.

2. Equity Portfolio:

The objective of the Equities Portfolio is to preserve State Fund's principal and surplus by adding diversity to the portfolio and reducing volatility of the results over the long term. The objective is to seek long-term total return and current income by investing primarily in large cap, high quality dividend paying stocks of United States and Canada companies that show a consistent history of strong dividend growth and sustainability.

The Portfolio is expected to exceed the performance of its established benchmark over the long term.

3. Federal Home Loan Bank Portfolio:

The objective of the Federal Home Loan Bank (FHLB) Portfolio is to preserve State Fund's principal and surplus and to create a readily available funding source to help manage State Fund's liquidity and emergency needs as well as to add incremental income by matching loans (or advances) to the reinvestment of cash in fixed income securities maturing in 5 years or less. The target spread over the FHLB advance rate should exceed the established benchmark.

4. Cash and Cash Equivalents:

The objective of the cash portfolio is to preserve State Fund's surplus and principal, to maintain liquidity, and to provide a readily available funding source for settlement of trades, claims payments, and other necessary operational expenses.
