2011 Loss Control Initiatives

Servicing and Measuring

- Loss control servicing focus on analyzing losses, trends and prevention:
 - high claim frequency
 - potential for loss
 - accounts with a high experience modification rating ($\geq 125\%$)
- Service plans, reports and letters are documented
- Tracking and measuring outcomes of claims frequency reduction
- Site visit and work with over 10,000 individual accounts

Employer Outreach Safety Seminars

- Seminars feature internal safety, ergonomics, and industrial hygiene subject matter experts as presenters
- Complimented by presenters from Cal/OSHA, the California Highway Patrol, The Department of Health Services
- Topics: Heat Illness Prevention, Surprise Inspection- Economic Employment Enforcement Coalition (EEEC), Business Continuity, Enhanced Driving Strategies, Construction and Ag Related Topics
- 2011 Focus on:
 - Cost Savings in Producing Seminars
 - ROI

Safety Products

Supports the population of accounts that are not visited by loss control

- Safety Videos/DVD lending library: Over 300 individual titles
- Safety Materials: Posters, Signs, Pamphlets and Brochures
- Safety Information: Articles, Safety Bulletins and Quarterly Newsletters

Cost Savings in 2011

- State Fund produced safety videos and DVDs to be made available through a portal on website
- Reduce amount of printed safety materials
- All safety information available exclusively on website
