

TAKING ACTION FOR SAFETY AND HEALTH:

Free Training on Implementing an Injury and Illness Prevention Program (IIPP)

Farmworkers suffer high rates of work-related injuries and illnesses. Creating an effective Injury and Illness Prevention Program (IIPP) can help create a safe work environment for your employees.

Specifically designed for the **Agricultural Industry**, this free half day course will instruct you on how to develop and implement an effective health and safety program that meets the requirements for Cal/OSHA's IIPP standard.
