

Telehealth Services

We're using technology to connect you with a doctor anytime, anywhere.

By partnering with Kura MD, a leading provider of telehealth services, we're giving you the ability to video chat with an experienced physician 24 hours a day, seven days a week, from any Internet-connected device. Telehealth services are effective, convenient, and can save you travel time and money.

How to connect with a telehealth physician:

1. Call Kura MD at **1-855-295-8218** or speak to your State Fund adjuster to find out if your injury is suitable for telehealth.
2. A Kura MD medical coordinator will send you a secured link via text or email so you can video conference with a Kura MD physician.
3. At your appointment time, find a quiet, private place with an Internet connection. Use your video enabled smartphone, tablet, or computer to open the secure link and start speaking with your Kura MD physician.

*Together, we'll keep
California working*
