

# Fundamentals of Ergonomics

## CDI-Accredited Continuing Education Course for Brokers

Interested in strengthening your client relationships and the value you bring? Our Fundamentals of Ergonomics course offers the tools you need to help guide your clients to create work environments engineered for long-term health and productivity. This course can help your clients identify risk of injury from routine activities.

*Together,  
we'll keep  
California  
working*

You'll also learn how to:

- Explain the significance of ergonomics and the enormity of its impact
- Identify the basics of an ergonomically-sound workstation
- Utilize State Fund's ergonomics resources for the benefit of your clients

State Fund offers continuing education courses needed to renew your Property and Casualty Broker/Agent license at no charge. Contact your State Fund Senior Marketing Representative to learn more, register, or arrange a private on-site class for your staff.
