

# STATE FUND'S Employer Education Series

## *Cal/OSHA Fall Protection Training for the Construction Industry*

Falls on the job can be tragic. One in five work related deaths in 2014 were in the construction industry, and 40% of those deaths were from falls. They also have a serious impact on your bottom line, due to lost productivity, lawsuits, and fines.

Cal/OSHA Consultation Services teaches this **free** course that covers the mandatory requirements employers must meet to protect workers from falls in the construction industry.
