

STATE FUND'S Employer Education Series

Cal/OSHA Confined Space Training

Confined spaces, such as manholes, crawl spaces, and tanks, are not designed for continuous occupancy and are difficult to exit in the event of an emergency. People working in confined spaces face life-threatening hazards including toxic substances, electrocutions, explosions, and asphyxiation. This free public seminar is designed to help employers identify and reduce risk in confined space work situations.

Join us
Tuesday, October 11, 2016
9:00 a.m. - 11:00 a.m. (Spanish)
1:00 p.m. - 3:00 p.m. (English)

Del Webb
Solera Diamond Valley (Clubhouse)
1640 Paseo Diamante
Hemet, CA 92545
