

# STATE FUND'S Employer Education Series

## Cal/OSHA Confined Space Training

Confined spaces, such as manholes, crawl spaces, and tanks, are not designed for continuous occupancy and are difficult to exit in the event of an emergency. People working in confined spaces face life-threatening hazards including toxic substances, electrocutions, explosions, and asphyxiation. This free public seminar is designed to help employers identify and reduce risk in confined space work situations.

Join us

Thursday, September 15, 2016  
8:00 a.m. - 10:00 a.m. (Spanish)  
11 a.m. - 1:00 p.m. (English)

Imperial Irrigation District  
81600 58<sup>th</sup> Avenue  
La Quinta, CA 92253

Contact [safetyseminar@scif.com](mailto:safetyseminar@scif.com) or call (323) 266-5003 or register online at <http://statefundca.com/safety/seminars/Seminars.aspx>.

The presentation will include information about:

- How to identify confined space
- Who is impacted
- How to protect workers in confined spaces
