

# STATE FUND'S Employer Education Series

## Cal/OSHA Confined Space Training

Confined spaces, such as manholes, crawl spaces, and tanks, are not designed for continuous occupancy and are difficult to exit in the event of an emergency. People working in confined spaces face life-threatening hazards including toxic substances, electrocutions, explosions, and asphyxiation. This free public seminar is designed to help employers identify and reduce risk in confined space work situations.

Join us

Thursday, September 22, 2016  
9:00 a.m. - 11:00 a.m. (English)

Rosa Parks Memorial State Building  
DOT Basement Training Room  
464 W. 4<sup>th</sup> Street  
San Bernardino, CA 92401

Contact [safetyseminar@scif.com](mailto:safetyseminar@scif.com) or call (323) 266-5003 or register online at <http://statefundca.com/safety/seminars/Seminars.aspx>.

The presentation will include information about:

- How to identify confined space
- Who is impacted
- How to protect workers in confined spaces
